OLD BUSINESS

- Classroom Acoustics:
 - Robin Glosemeyer reported that a downloadable version in PowerPoint will reside on the TCAA Website and will be available soon.

- Suggestions for advertising were discussed, including delivering copies to teacher's unions, showing copies at technical committee meetings. No action was determined.
- Brochure will be published in the next Acoustica in Mexico
- Classroom Acoustics Working Group
 - Dave Lubman reported that an ANSI standard is developed, thanks to Lou Southerland. It was accepted with only a couple of objections. It will be accepted on its tenth revision. Also, InformationTV will produce a film on improving our schools with a 10-minute spin-off on classroom acoustics. It was ASA (TCAA) and NCAC supported. It should air this fall.
 - Neil Shaw suggested that ASA should see the script before it is shot using ASA money.
 - Dave Lubman assured the review opportunity would be available.
- TCAA Web Page Update - Les Blomberg
 - Classroom acoustics materials are being made available from the TCAA site. Minutes of the meetings continue to be posted there as well.
 - Brandon Tinianov questioned whether metatags were strong enough for it to be found within the first 10 hits.
 - TCAA website links to regional chapters.
- Student Council Update - Dorie Najolia
 - Dorie Najolia asked for volunteers to build the web page. It will be hosted at the Penn State server. Suggested that the Web Page could help students with travel sharing and finding cheap hotels for students at conferences. No immediate takers. Student council is pursuing an award for scholarship and a mentor program.
 - Neil Shaw pointed out the AES student chapter association as a model.
 - TCAA needs a new student for student council. No immediate takers.
- Concert Hall Research Group
 - Paul Calamia - More CDs are available. There has been little response from the draft from the previous meeting.
